**Department of Computer Science & Engineering [AI & ML]**

## Title of the Event:

Technical Talk on Cyber Security and Digital Forensics

## Date & Time:

2nd Sept 2025, 10:30 AM

## Venue:

Seminar Hall, KLS Vdit Haliyal

## Organized By:

Department of Computer Science & Engineering (CSE)

Department of CSE [AI & ML]

## Program Objective:

The objective of the event was to enhance students' technical knowledge, ethical awareness, and professional values through expert interaction and mentorship. The program aimed to:

- Expose students to modern tools and practices in cyber security and digital forensics (PO5).
- Create awareness of the societal, legal, and professional responsibilities of engineers (PO6).
- Reinforce the significance of ethics (PO8) in handling digital data and addressing security challenges.
- Encourage a culture of teamwork, mentorship, and collaborative learning (PO9).

## Session Highlights:

Prof. Kaushik's session provided valuable insights into:

- Emerging challenges in cyber security and digital forensic investigations.
- Hands-on perspectives on the use of forensic tools for data recovery, evidence collection, and incident analysis.
- The legal and ethical considerations involved in handling cybercrime cases.
- The importance of professional responsibility and the role of engineers in ensuring secure digital practices.

The session encouraged students to think critically about real-world cyber threats and motivated them to pursue continuous learning in this dynamic field.

## Outcomes of the Event:

- Students gained awareness of advanced tools and methodologies in cyber security and digital forensics.
- The event highlighted the ethical and societal responsibilities of engineers in safeguarding digital environments.

## POs Mapped:

The event contributed to the attainment of the following Program Outcomes (POs):

- PO5 – Modern Tool Usage

- PO6 – The Engineer and Society
- PO8 – Ethics
- PO9 – Individual and Team Work

## Feedback Questions:

Q1: Did the session give you awareness of modern tools, technologies, and practices in cyber security and digital forensics?

Q2: Did the event encourage collaboration, interaction, and teamwork among students and faculty?

Q3: Did the session emphasize the importance of professional ethics in handling digital data and cyber security challenges?

Q4: Did the session help you understand the role and responsibility of engineers in addressing societal and legal issues related to cyber security?

Q5: How would you rate the effectiveness of the resource person in delivering the content?
